

# Fix Fit Pro

## Ceramic Protection for Fixtures and Fittings

www.migmagpro.com

**FIX FIT Pro** protects welding equipment and the surrounding work area from damage caused by weld spatter.

This water based, long lasting and durable ceramic coating prevents weld spatter from adhering to any coated surface.

---

<b>Benefits</b>	<input type="checkbox"/> Water based
	<input type="checkbox"/> Greatly reduced process costs
	<input type="checkbox"/> Increased welding time
	<input type="checkbox"/> Faster clean up
	<input type="checkbox"/> Improved productivity

---

<b>Typical Uses</b>	<input type="checkbox"/> Protection of jigs, fixtures and fittings
	<input type="checkbox"/> Protection of cables
	<input type="checkbox"/> Protection of critical work pieces

---

### Method of use

**Application** Gently shake the container for 20 to 30 seconds before use.  
Apply by brush, dip or spray.  
The coating dries in 10 to 15 minutes depending on the ambient temperature and ventilation.  
Do not apply to hot surfaces as this will cause the coating to blister.

**Surface preparation** For best results the surfaces should be clean, dry and free of dirt and oil.

---

After use reseal the container to prevent contamination.  
Wash brushes or clean spray guns with cold water

**Shelf life** 12 months from qualification under original seal

**Health & Safety** Please refer to the Material Safety Data Sheet for handling and safety data.

**Container Size** ml

**Companion Product** MigMagPro - Ceramic protection for consumables.
